

# Let's Talk Environmental Monitoring

E1 Sensor | Protect your spaces from abnormal temperature and humidity

- Protect against environment issues and accurately monitor temperature-sensitive areas
- Receive alerts for temperature and humidity fluctuations with synchronized video footage
- Prevent spoilage, reduce waste, and identify potential equipment failure
- Attach anywhere to monitor temperature and humidity across locations through the Rhombus Console or Mobile App

## About the E1

The E1 Sensor delivers powerful temperature and humidity monitoring capabilities combined with video footage to provide insight when issues arise in temperature-sensitive areas.

The E1 connects automatically to the nearest Rhombus BLE-enabled device and can be attached anywhere to issue alerts when an environment reaches abnormal levels.
