

Asset Tracking

Track and receive alerts when items go missing

Simple configuration, get started in minutes and install anywhere to track assets. The Rhombus T1 Asset Tag seamlessly connects to the nearest BLE-enabled Rhombus device to provide object location and issue alerts based on movement, arrival, and departure.

- ◆ Find employees during emergencies or eliminate shrinkage, missing items, and theft
- ◆ Attach to any object to track movement and location across your entire organization
- ◆ Receive alerts when objects move, arrive, or depart with synchronized video footage
- ◆ Manage all assets through the Rhombus Console or Mobile app
